81.

A composition for use in treating an estrogen receptor-mediated disorder in a mammal, comprising a therapeutically effective amount of a compound of claim 70 in a pharmaceutically effective carrier.

REMARKS

New claims 70-81 are submitted in accordance with the elected subject matter as discussed telephonically with Examiner Ramsuer. Non-elected subject matter set forth in original claims 1-69 is cancelled without prejudice or disclaimer. Applicants will file one or more divisional applications to pursue the non-elected subject matter.

From the foregoing, favorable consideration on the merits is believed to be next in order, and such action is earnestly solicited.

If the Examiner has any questions concerning this Reply, or the application in general, he is invited to telephone the undersigned at the number listed below.

Respectfully submitted,

PILLSBURY WINTHROP LLP
